

GRAFTON GULLY BOULEVARD

A multi-way boulevard for Grafton Gully that will continue to accommodate high freight and traffic volumes with improved traffic flow. Safer and more civilised street edges are established to facilitate walking, cycling and local access while encouraging new mixed use development opportunities alongside. Total width of road reserve and number of traffic lanes to be determined and will likely vary along length.

New mixed-use development frontage.

Local access lane & kerbside parking .

Safe & dignified signalised at grade crossing for pedestrians & cyclists.

Widened footpath & separated cycleways connecting Grafton Gully cycleway with Quay Street and Tamaki Drive

Dedicated central through lanes for freight and general traffic.
